WORK EXPERIENCE

Administrative Assistant IV (Performing IT and Programming Functions)

Municipality of Pangil, Laguna — 2009–Present

Key Responsibilities

- Designs and develops municipal systems using **Visual Studio (C#)** and **MySQL**.
 - Provides **hardware, software, and network troubleshooting and maintenance**.
 - Manages **database administration**, data backups, and security protocols.
 - Conducts IT orientations and user training for municipal employees.
 - Collaborates with various offices to integrate and automate data reporting.

 - Designed and developed the official Municipality of Pangil website using PHP, MySQL, HTML5, CSS3, JavaScript, and Bootstrap.
 - Developed an Online Reservation System for Panguil River Ecopark featuring pavilion, dormitory, room, and cottage reservations.
 - Built a web-based Online Receipt Management System for municipal transactions.
 - Created responsive admin dashboards for content, reservations, and transaction management.
 - Implemented dynamic News & Announcements and Office Directory modules.
 - Designed secure database structures and optimized system performance.
 - Integrated responsive layouts for desktop and mobile devices.
 - Maintained and enhanced municipal web applications.
-

KEY ACHIEVEMENTS

Developed and implemented in-house systems for municipal use:

- **Waterworks Billing and Collection System** – automates billing, consumption tracking, and links to the **General Collection System**.
- **General Collection System** – centralizes collections across multiple departments.
- **Real Property Tax Assessment System (RPTAS)** – assists the **Assessor's Office** in property data and assessment tracking.
- **Real Property Tax Billing System (RPT Billing)** – automates billing and collection for real property taxes.
- **Business Permit and Licensing System** – simplifies permit application and renewal.
- **Cemetery Information System** – digitizes burial lot management and payments.

Integrated multiple systems under a single **MySQL database** for unified reporting. Enhanced revenue transparency and reduced human error through automation. Recognized for leadership and innovation in digital transformation within the municipality.

New Section: Featured Web Projects

Municipality of Pangil Official Website

Role

Full Stack PHP Web Developer

Description

Developed and currently maintaining the official municipal website designed to provide citizens with online access to government information, announcements, office directories, and digital services.

Technologies

PHP • MySQL • Bootstrap 5 • JavaScript • HTML5 • CSS3

Key Features

- Responsive Design
 - News & Announcements
 - Office Directory
 - Contact Directory
 - Content Management
 - Admin Dashboard
 - File Upload Management
-

Panguil River Ecopark Reservation System

Role: Full Stack PHP Web Developer

Description:

Designed and developed a web-based reservation management system for the Panguil River Ecopark to streamline the booking process for visitors and improve reservation management for municipal staff. The system provides an efficient, user-friendly platform for online reservations, approval workflows, and facility management.

Technologies Used:

- PHP
- MySQL
- HTML5
- CSS3
- JavaScript
- Bootstrap 5
- AJAX

Key Features:

- Online Pavilion Reservation
- Online Dormitory Reservation
- Online Room Reservation
- Reservation Approval Workflow
- Reservation Status Tracking
- Reservation Calendar
- Facility Availability Checking
- Responsive Admin Dashboard
- Customer Information Management
- Reservation Reports and Records

Online Receipt Management System

Role: Full Stack PHP Web Developer

Description:

Developed a web-based receipt management system that enables efficient recording, monitoring, and reporting of municipal payment transactions. The system improves transparency, minimizes manual record-keeping, and simplifies receipt generation and tracking.

Technologies Used:

- PHP
- MySQL
- HTML5
- CSS3
- JavaScript
- Bootstrap 5

Key Features:

- Digital Receipt Generation
 - Payment Monitoring and Tracking
 - Transaction History Management
 - Printable Receipts
 - Search and Filter Functions
 - Financial Reports
 - Secure Data Storage
 - Administrative Dashboard
-

TECHNICAL SKILLS

Programming Languages

- PHP
 - C#
 - JavaScript
 - HTML5
 - CSS3
-

Frontend Development

- Bootstrap 5
 - jQuery
 - AJAX
 - Responsive Web Design
 - Cross-Browser Compatibility
-

Backend Development

- PHP (Native)
 - CRUD Application Development
 - Authentication & Authorization
 - Content Management Systems (CMS)
 - Admin Dashboard Development
 - Session Management
 - Form Validation
-

Database Management

- MySQL
 - Microsoft SQL Server
 - Database Design & Normalization
 - SQL Query Optimization
 - phpMyAdmin
-

Web Development

- Dynamic Website Development
 - Responsive Website Development
 - Online Reservation Systems
 - Payment & Receipt Management Systems
 - News & Content Management Systems
 - Office Directory Systems
 - File Upload Management
 - System Maintenance & Enhancement
-

Development Tools

- Visual Studio Code (VS Code)
 - Visual Studio
 - XAMPP
 - phpMyAdmin
 - Git
 - GitHub
 - WordPress
-

Software & Productivity Tools

- Microsoft 365
 - Canva
 - Adobe Photoshop (Basic)
 - TeamViewer
 - AnyDesk
-

Networking & IT Support

- LAN/WAN Configuration
 - Router & Switch Configuration
 - Network Troubleshooting
 - Computer Hardware & Software Installation
 - Computer System Maintenance
 - Technical Support
-

Other Professional Skills

- System Analysis & Design
 - Database Administration
 - Data Automation
 - Report Generation
 - System Documentation
 - IT Project Implementation
 - User Training & Technical Support
 - Cybersecurity & Data Privacy Awareness
 - Problem Solving
 - Troubleshooting
-

Version Control

- Git
- GitHub

UI/UX Design

- Responsive UI Design
- User Interface Design
- Wireframing (Basic)

Web Server

- Apache (XAMPP)
-
